PRODUCTION, COMMERCIALIZATION & DISTRIBUTION OF TREATS & FOOD FOR DOGS AND CATS

DOGS

CATS

WHO WE ARE

NAVUS NATURALS™ brand is dedicated to delivering quality treats for dogs and cats. We continually work to improve our formulations to meet the expectation our customers have for their pets. We are committed to providing the highest quality products with only the best ingredients

OUR COMMITMENT

We commit ourselves daily to being responsible and efficient, grounded in 3 core values that are essential to our mission:

- Pets deserve quality, trustworthy treats
- Pets deserve honest, real ingredients that are locally sourced
- Pets deserve love, the best care and an unbeatable quality of life

INNOVATION

QUALITY MANAGEMENT

Our quality process starts the moment we start to source our raw materials. This allows us traceability from start to finish.

CONTROL OF RAW MATERIALS

We only use the highest quality meat, poultry and fish ingredients that are classified as “suitable for human consumption”.

CONTROL OF THE FINAL PRODUCT

Prior to the completion of the manufacturing process, all of our products go through a rigorous inspection process to ensure the absence of microbials and ensuring freshness and safety.

INNOVATION

Our Mediterranean manufacturing facility has a collaborative agreement with the Department of Physiology of Biology faculty at the University of Murcia.

That agreement allows collaborative work in quality control, development and innovation.

QUALITY RAW MATERIAL

We use high quality raw materials and delicious ingredients to satisfy your pet's palate!

The manufacturing process is not invasive (it does not harm the raw material), thus preserving the benefits of the products.

NATURAL PROTEIN SOURCE

NAVUS NATURALS™ Serrano Ham Bones are not baked or boiled. The bones are aged for a minimum of 1-year in a controlled environment. This unique aging process cures the meat, providing a bone that has a premium flavor profile that only comes from Spain. Our Serrano bones are 3 times more resistant to fracture than baked bones.
